

AI-Powered Third-Party Risk Management

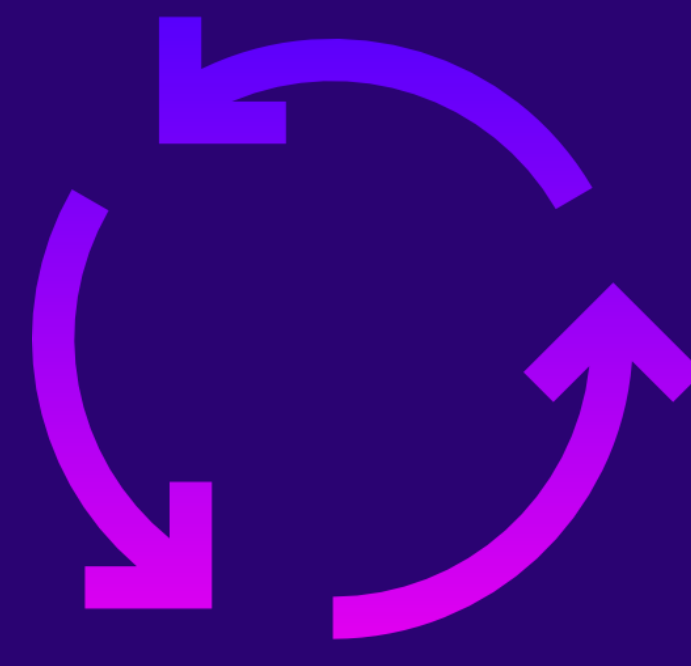

Automate. Monitor. Secure

- **Assess vendors** faster with automated questionnaires, document analysis, and AI-assisted validation.
- **Monitor continuously** for external threats, vulnerabilities, and breach exposure.
- **Generate clear reports** showing vendor criticality, risk scores, and control gaps.
- **Remediate findings** automatically using AI-suggested actions for failed controls and vulnerabilities, accelerating vendor risk resolution.

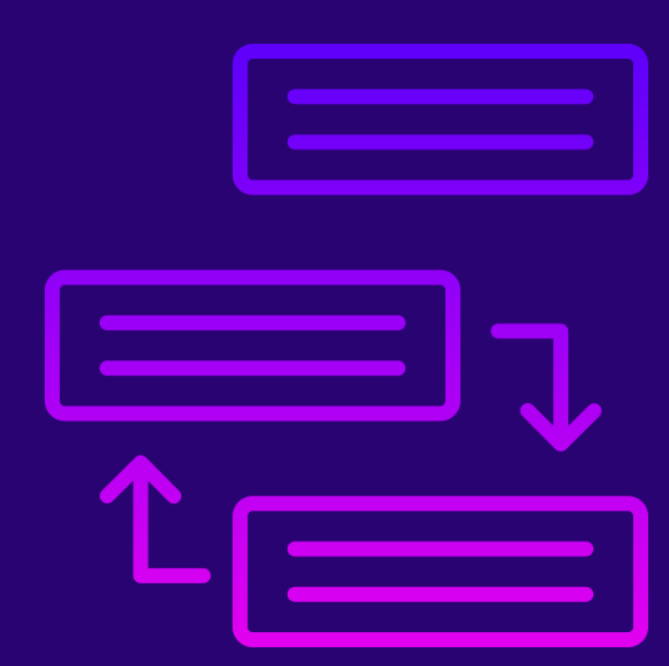

Identify Risks

Automate risk assessments with AI, reducing onboarding time from 90 days to <5.

Continuous Monitoring

Stay ahead with breach detection, compliance drift alerts, and vendor scoring.

Prioritize What Matters

Tier vendors by criticality and generate board-ready risk reports in minutes.

Assess vendors in days, not months.

Cost Savings

Save \$150K–\$300K/year in manual workforce

Risk Reduction

Prevent 40–60% of potential supply chain breaches

Compliance Boost

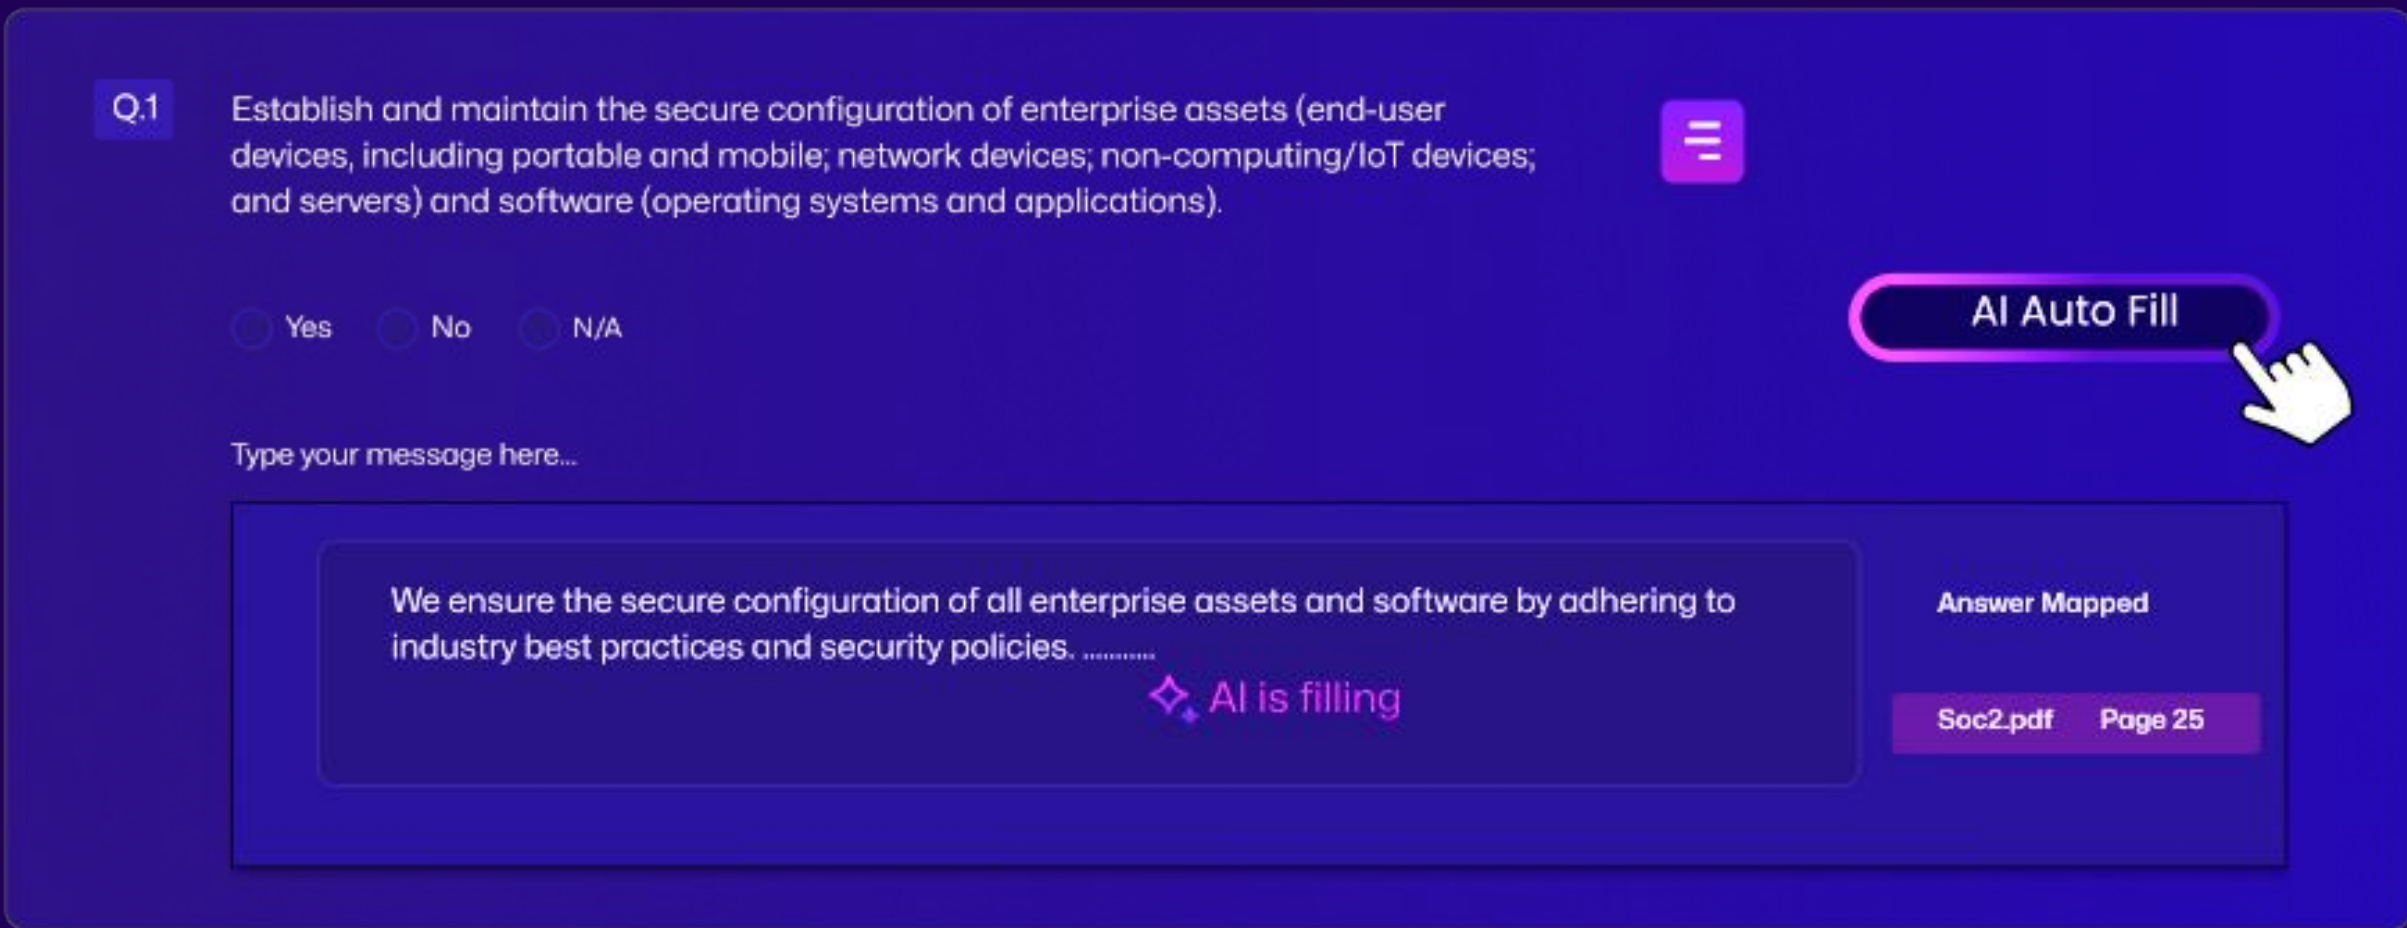

Cut audit prep time by 80% with auto mapping

One Platform. Three Pillars. Total Visibility.

From autofilled questionnaires to breach alerts and board-ready reports, Genesis Platform delivers end-to-end third-party risk intelligence.

Genesis Assess

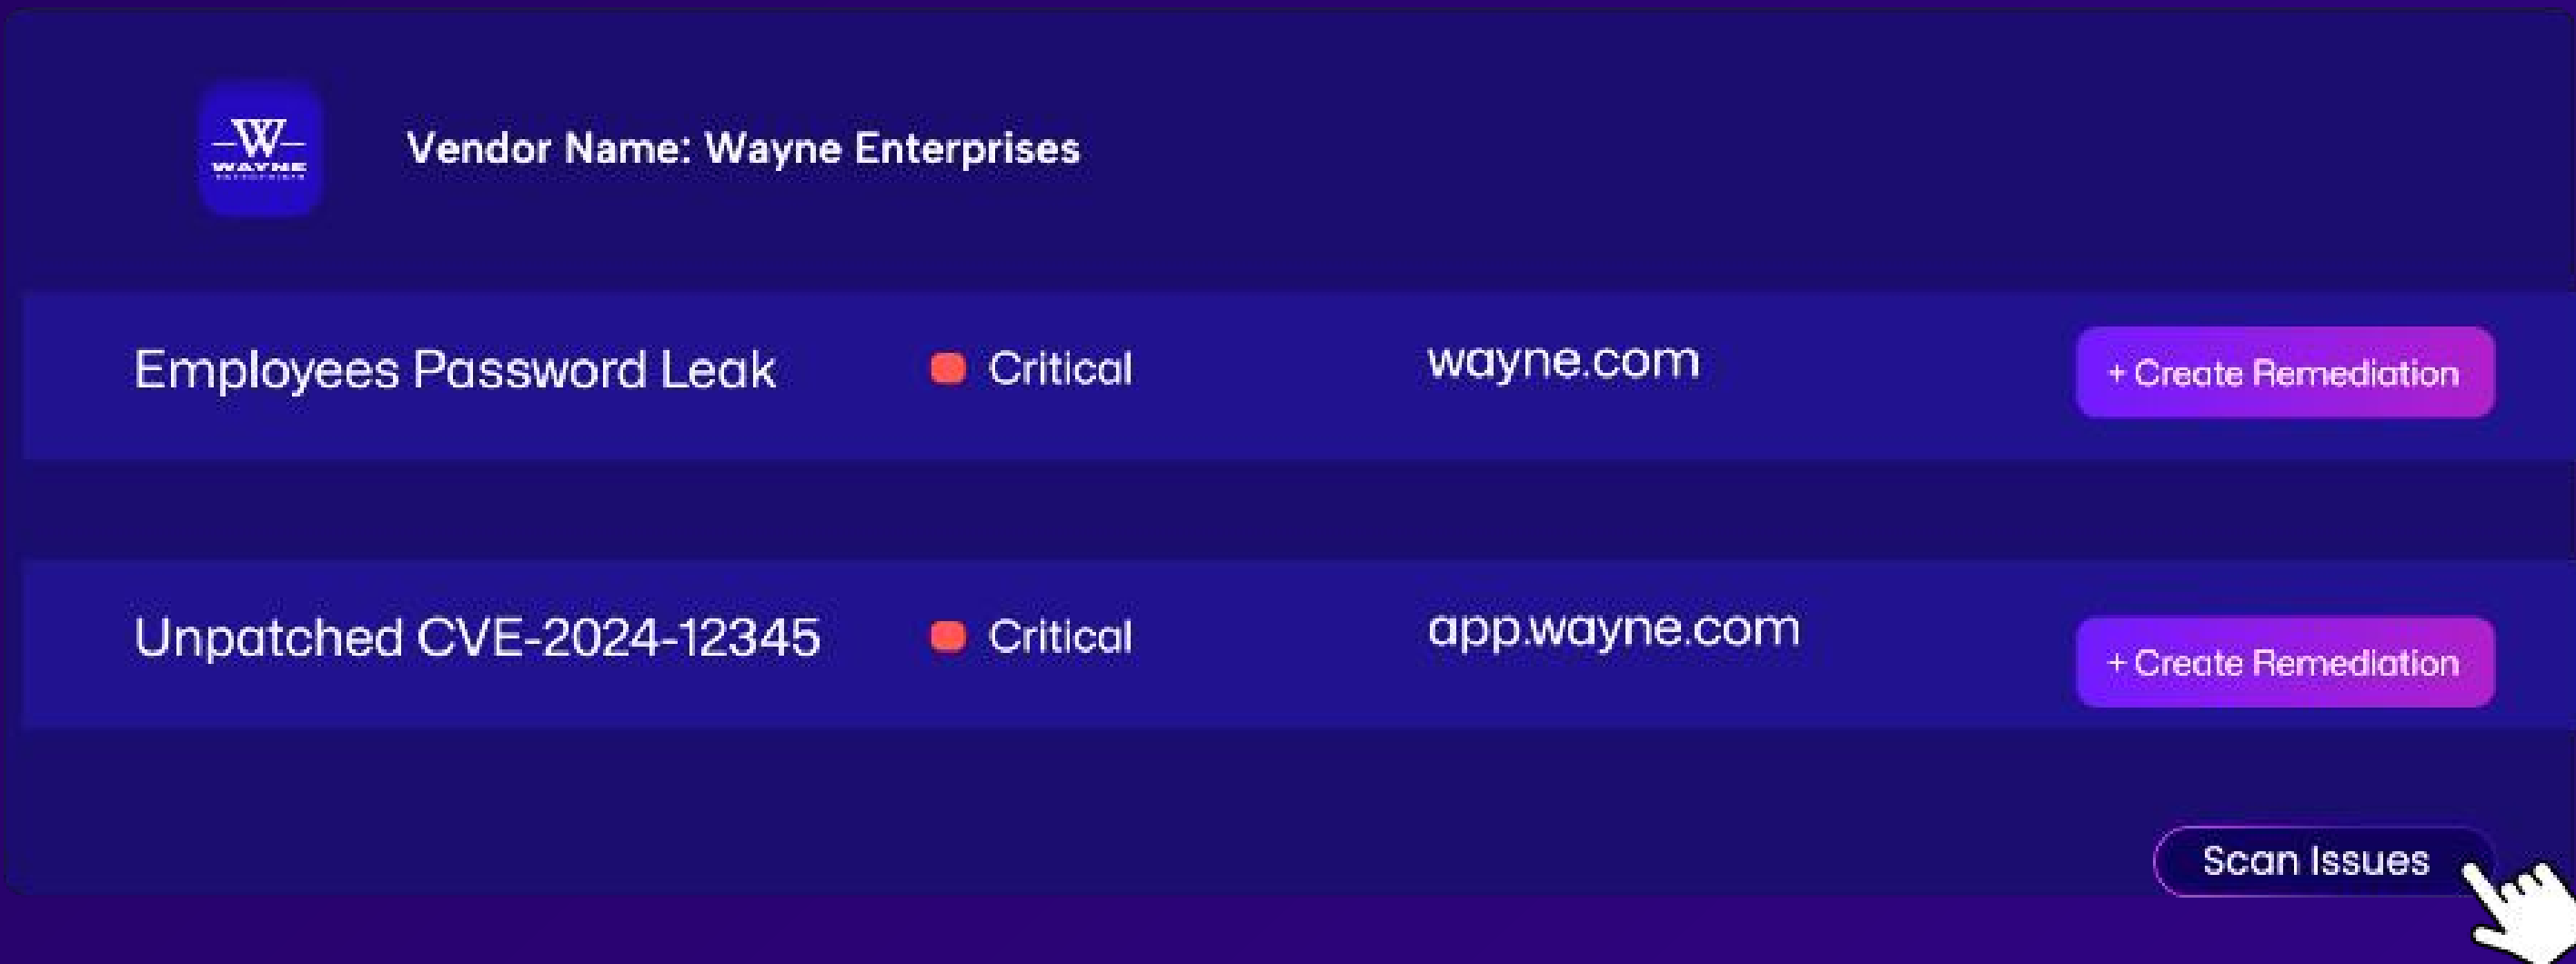

- AI Auto Fill
